

OCCUPATIONAL HEALTH AND SAFETY

Accessing quality occupational health and safety services for your employees and other stakeholders has never been simpler

As market-leading specialists in health risk management, we have provided outcomes-based health services to organisations across various industries for 30 years.

From assessing your environment to prevention and treatment, we monitor your organisation's progress, ensure compliance, and streamline your operations to achieve efficiency and sustainability.

Backed by Life Healthcare, a trusted, global healthcare group with an extensive network of well-being practitioners, we provide a

tailored healthcare approach that adapts to your organisation's needs.

Whether you are a small business owner, multinational company, or an educational institution, we ensure that your employees and stakeholders are cared for so that you can focus on running your business.

We take occupational health and safety seriously, and so should you

All employers in South Africa have a legal obligation to provide and maintain a working environment free of risk for the health and safety of employees.

Our comprehensive occupational health and safety services make compliance easy.

We have seen how workplace-related injuries and diseases affect company profit through the cost of lost productivity caused by various factors:

Sick leave

Lost skills

Re-training

Recruitment

Medical insurance

Medical treatment

A preventive approach, for everyone

Identifying health risks pre-emptively and implementing an integrated system of healthcare solutions, ranging from clinical health assessments to safeguarding work environments, will help you take care of your employees holistically and protect your company against possible legal liability suits.

And we will be there to guide you every step of the way.

We follow a health risk management approach based on a thorough consultative process to build the best solution for your business.

Our health risk management approach to occupational health and safety is based on a thorough consultative process that allows us to build the best healthcare solution for your business.

Medical surveillance

We help you adhere to the Occupational Health and Safety Act and its regulations and ensure that your company remains legally compliant.

Occupational medical examinations

We conduct annual medical examinations to assess employees' medical fitness and detect any changes in their health.

Your partner in health risk management

Occupational health and safety risks can include a range of hazards, such as faulty equipment and environmental exposure to toxic materials. Uncovering and managing these potential health risks are essential for keeping your people safe and your business operational.

A full range of integrated healthcare services

We make a meaningful, measurable difference to the businesses and communities we serve by aligning organisations' operational processes with legally required service delivery standards through four seamlessly integrated health risk management solutions.

Occupational health and safety

Well-being at work

Primary healthcare

Emergency medical services
